

MX - Axial Medium

C - CELERON

Load capacity up to 800kg

RIG

Made of steel with a painted finish and swivel section with two axial ball bearings. Bolted wheel axle

WHEEL

C - Celeron Hardness: 103 Rockwell M. (-30°C to + 120°C)

Manufactured with a compound obtained from macerated cotton fibers drenched with phenolic resin, molded by heat and pressure. They have excellent mechanical properties, are light and rugged, resistant to deformation under static loads and roll easily. They can be used over a wide temperature range. They are resistant to mild oils, greases and acids in low concentrations. Not recommended for applications in wet environments in contact with alkaline substances. (e.g., caustic soda, chlorine, cleaning products, soap and detergent). Nominal working speed is up to 4km/h.
