

MX - Axial Medium

P - MOLDED POLYURETHANE

Load capacity up to 900kg

RIG Made of steel with a painted finish and swivel section with two axial ball bearings. Bolted wheel axle

WHEEL

P - Molded Polyurethane. Hardness: 90 Shore A. (-40°C to + 80°C)
Produced with a molded polyurethane tread and grey cast iron wheel center. Ideal for applications on various surface and environment types. They withstand high loads, protect the floor, require less effort to handle, produce low noise level during handling, and have an excellent service life. They have great resistance to abrasion, impacts, weathering and chemicals such as greases, oils, salts and solvents. They can be used at a speed of up to 20km/h when mounted with ball bearings.
