

WHELL TB

THERMOPLASTIC RUBBER

TB - Thermoplastic Rubber. Hardness: 80 Shore A. (-20°C to + 70°C)
 Produced with recyclable thermoplastic elastic rubber tread and polypropylene copolymer wheel center. They present an excellent floor protection, soft and quiet rolling, easiness to handling and maneuvering, impact resistance, have a low deformation index under load and excellent abrasion resistance. They have a good resistance to weathering and chemicals such as salts and greases. Nominal working speed is up to 4km/h.
