

WHELL NU

POLYURETHANE MOLDED

NU - Molded polyurethane with Nylon Wheel Center. Hardness: 90 Shore A. (-40°C to + 80°C). Produced with a molded polyurethane tread and injected nylon wheel center. The mechanical bond system ensures excellent resistance and service life. Ideal for applications on various surface and environment types. They are light, withstand high loads, protect the floor, require less effort to handle and produce low noise level during handling. They have an excellent resistance to abrasion, impacts, weathering and chemicals such as greases, oils, salts and solvents. They may be used in a speed up to 4km/h.
